Physical age	4 Years Old

Development delay	Communication	Mobility issues	Potty training
IQ estimated about 17 months by a psychologist	alternative communication is being introduced	no	no

**Wyatt is about to receive his own personal AAC device for communication. He already uses one at school.**

## Support for AGO kids in the US, OH:

- ✓ Education
- ✓ Healthcare
- ✓ Financial assistance
- ✓ Legal protection
- ✓ Community inclusion initiatives
- ✓ Eliminating mobility barriers
- ✓ Social services and family support

Wyatt's local autism society is supportive and hosts inclusive events his family joins year-round. Each spring, they raise funds in gratitude.

## Individual Support:

- ✓ Special needs school
- ✗ Personal assistant at home
- ✗ Extra classes
- ✗ Supporting teacher in school

Wyatt's family is part of the Akron Autism Society and the Northeast Ohio Autism Parents group

I like to spend time outside — swinging and spinning in my sensory chair!

## What are you most proud of as a parent?

We're proud of Wyatt's ongoing enthusiasm for learning new things!

## Wyatt's family

## Day-to-day life

What is the latest thing your child has learned?

Wyatt keeps putting new words together, making 2- to 3-word sentences.

What are the strongest areas for your child?

Hands-on play is Wyatt's strongest skill.

What are the biggest challenges for your child?

Wyatt finds it challenging to slow down because he prefers to keep moving.
